Hazardous Materials (HM) - Reviews

This module provides summarized data for five fiscal or calendar years, including current year to date information, on all types of reviews (Motor Carrier Safety Compliance Reviews, Cargo Tank Facility Reviews, Security Contact Reviews, etc.) conducted on motor carriers that transport property or passengers in interstate or intrastate commerce. These reviews are conducted to investigate potential safety violations, to investigate complaints, or in response to a carrier's request for a change in safety rating.

It is intended that through education, heightened safety regulation awareness, and the enforcement effects of reviews, motor carriers will improve the safety of their commercial vehicle operations and, ultimately, reduce their involvement in crashes.
